Get started

Install App Kit

Copy page

Install the App Kit core package and your preferred adapter to start building apps

To get started with App Kit, install the core package and the adapter that fits your environment.

To **swap**, you need a (free) kit key from **Circle Console**.

1 Install the core package

npm yarn

```
npm install @circle-fin/app-kit
```

Need a lighter install? Individual packages are available

2 Install your preferred adapter

Viem **Ethers** **Solana** **Circle Wallets**

npm yarn

```
npm install @circle-fin/adapter-viem-v2 viem
```
